WE DO WOOD  
WORK WITH  
CERTIFIED BAMBOO  
PLANTATIONS

## OUR RESPONSIBILITY

We Do Wood has chosen to design furniture in the material moso bamboo, because it is one of the most sustainable natural resources the world has. And it is the only woody plant that can keep up with the rate of human consumption and deforestation.

### Some facts about bamboo:

- Bamboo is a fast growing grass and quickly reaches maturity in about four years versus 10-20 years for most softwoods (pine, cedar) and 40-80 years for hard woods (ash, birch, oak, teak).

- The bamboo root system is continually sprouting new growth and new shoots. This continuous sprouting makes replanting after harvesting

unnecessary, as opposed to all types of wood. In addition, bamboo does this all naturally without any chemicals, pesticides, herbicides or fertilizers.

- Bamboo is a crucial element in the balance of oxygen and carbon dioxide in the atmosphere. A grove of bamboo naturally absorbs 2/3 more carbon dioxide and releases 1/3 more oxygen than an equivalent stand of trees. Because of this, planting bamboo is a great way to reduce your carbon footprint and help fight global warming.

- The soil quality in bamboo plantations is continually improved and soil erosion is prevented by the root system. This helps retain more water inland without drainage into the nearby river or

lake. Furthermore, bamboo plants prevent water pollution through its high nitrogen consumption.

We Do Wood only work with certified plantations. This is our guarantee that our bamboo is grown without any chemicals, pesticides, herbicides or fertilizers.

Furthermore the bamboo processing is done without the use of harmful chemicals and all adhesives used during processing and production has the lowest formaldehyde emissions in the industry, exceeding the strict European E1 standard for indoor air quality.

Our bamboo is shipped directly from the Chinese plantation to the European production facilities, which further reduces carbon emission from unnecessary transportation routes. Finally the furniture is flat-packed, which minimise the use of packaging material and decrease shipping volume.

We have done our best to reduce the carbon footprint of our products, all the way from the bamboo plantation to the final owner of our products. That is our responsibility.

## BUTTON STOOL

Material: moso bamboo legs, beech wood seat

Height: 44 cm

Diameter: 30 cm

Weight: 3 kg

Colors:

### **Product info**

Delivered in a flat package, final assembly done at home. Watch assembly instruction video for tips and tricks.

Cleaning of bamboo is done by a damped cloth applied a little soap. Maintenance is done by sanding with sandpaper (grain 180) in the fibre direction. Afterwards 3 treatments with linseed oil should be applied.

## SHOE RACK

Material: moso bamboo, brass or black steel

Height: 15 cm

Width: 100 cm

Depth: 25 cm

Weight: 1 kg

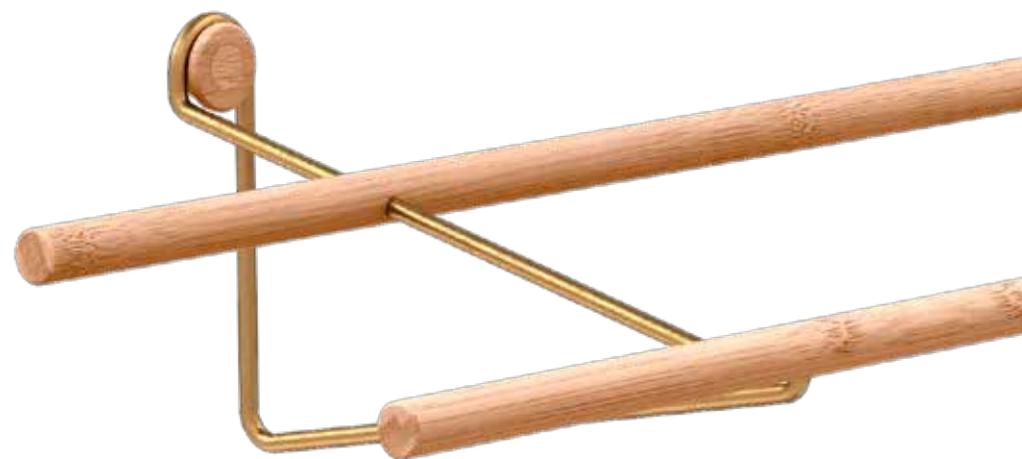

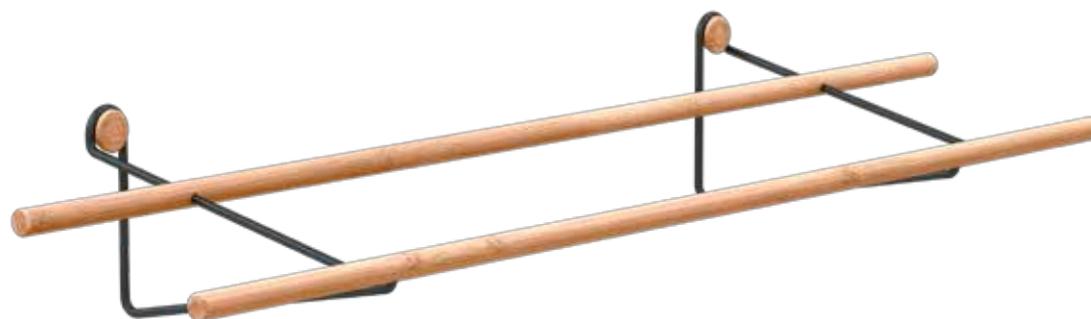

Colors:

## FIELD DESK

Material: moso bamboo and brass

Height: 75 cm

Width: 95 cm

Depth: 55 cm

Weight: 11 kg

### **About field desk**

Field Desk is a flexible home office desk, designed for occupying minimal space while allowing for storing your office essentials, such as laptops and magazines. The table can easily be disassembled when needed, due to the specially designed brackets.

Field Desk is made from certified moso bamboo, one of the most sustainable natural resources the world has. We Do Wood only work with certified plantations. This is our guarantee that our bamboo is grown without any chemicals, pesticides, herbicides or fertilizers. Furthermore the bamboo processing and furniture manufacturing is done without the use of harmful chemicals and all adhesives used during processing and production has the lowest formaldehyde emissions in the industry.

## COAT FRAME

Material: moso bamboo and steel

Height: 150 cm

Width: 53 cm

Depth: 7 cm

Weight: 4 kg

### About Coat Frame

Coat Frame consists of three adjustable coat hangers, which are mounting in a frame made of bamboo. The coat hooks are mounted on three metal bars, and can be adjusted both sideways and in height. The bamboo frame serves both as mounting system and also creates a beautiful visual framework for the family jackets, scarfs and so on.

Coat Frame is made from certified moso bamboo, one of the most sustainable natural resources the world has. We Do Wood only work with certified plantations. This is our guarantee that our bamboo is grown without any chemicals, pesticides, herbicides or fertilizers. Furthermore the bamboo processing and furniture manufacturing is done without the use of harmful chemicals and all adhesives used during processing and production has the lowest formaldehyde emissions in the industry.

## OCTAGON

Material: moso bamboo

Height: 41 cm

Width: 50 cm

Depth: 50 cm

Weight: 5,5 kg

### About Octagon

Octagon is new piece of furniture for the home with plenty on functions. It can be used as a coffee table, a stool, a bedside table or even as small children's table. The octagonal shape allows for many possibilities and offers a very robust piece of furniture.

Octagon is made from certified moso bamboo, one of the most sustainable natural resources the world has. We Do Wood only work with certified plantations. This is our guarantee that our bamboo is grown without any chemicals, pesticides, herbicides or fertilizers. Furthermore the bamboo processing and furniture manufacturing is done without the use of harmful chemicals and all adhesives used during processing and production has the lowest formaldehyde emissions in the industry.

## DINING CHAIR NO. 1

Material: moso bamboo

Height: 76 cm

Width: 49 cm

Depth: 45 cm

Seat height: 43 cm

Weight: 4 kg

Colors:

### About Dining Chair no. 1

Dining Chair no. 1 is a simple but elegant composition of several crafted pieces. The seat is rimmed with an abrupt incline inspired by old-fashioned metal dustpans, whose form represents both strength and practical use. A rounded back with two symmetric key-hole shapes carved into the frame enhance the three dimensional experience of the chair, and add lightness and air to its feel.

Dining Chair no. 1 is made from certified moso bamboo, one of the most sustainable natural resources the world has. We Do Wood only work with certified plantations. This is our guarantee that our bamboo is grown without any chemicals, pesticides, herbicides or fertilizers. Furthermore the bamboo processing and furniture manufacturing is done without the use of harmful chemicals and all adhesives used during processing and production has the lowest formaldehyde emissions in the industry.

## CORRELATIONS BENCH

Material: moso bamboo

Height: 43 cm

Width: 80 cm

Depth: 50 cm

Seat height: 43 cm

Weight: 15,6 kg

### **About Correlations Bench**

Correlations Bench is a rediscovered Scandinavian classic; a piece of furniture that invites you to use it. This bench offers plenty of storage, and is ideal for stowing away your essentials. Correlations Bench has a removable lid and a slim, straight shape without arm or back rests, hinges, handles or other unnecessary details. Each 80 cm module can be placed individually, or combined with other modules simply by adding the Correlations Link connector.

Correlations Bench is made from certified moso bamboo, one of the most sustainable natural resources the world has. We Do Wood only work with certified plantations. This is our guarantee that our bamboo is grown without any chemicals, pesticides, herbicides or fertilizers. Furthermore the bamboo processing and furniture manufacturing is done without the use of harmful chemicals and all adhesives used during processing and production has the lowest formaldehyde emissions in the industry.

## SJ BOOKCASE LARGE

Material: moso bamboo

Horizontal bookcase: 32x63x30 cm

Square bookcases (2 pcs): 49x49x31 cm

Vertical bookcase: 55x36x28 cm

Mounting bars (2 pcs): 115 cm

Colours: Steel Blue, Greenish Grey, Jade Green, Reseda Green

Weight: 22,7 kg

### About SJ Bookcase

The SJ Bookcase system redefines the traditional bookcase and offers a myriad of combinations and colours - from the rigorous to the more asymmetric expression. As the cases are removable, you can redesign the look and renew its uniqueness from time to time.

SJ Bookcase is made from certified moso bamboo, one of the most sustainable natural resources the world has. We Do Wood only work with certified plantations. This is our guarantee that our bamboo is grown without any chemicals, pesticides, herbicides or fertilizers. Furthermore the bamboo processing and furniture manufacturing is done without the use of harmful chemicals and all adhesives used during processing and production has the lowest formaldehyde emissions in the industry.

## SJ BOOKCASE MIDI

Material: moso bamboo

Horizontal bookcase: 27x37x22 cm

Square bookcase: 32x32x24 cm,

Vertical bookcase: 42x26x26 cm

Mounting bar: 115 cm

Colours: Olive, Cool Grey, Dark Grey

Weight: 11,7 kg

### About SJ Bookcase

The SJ Bookcase system redefines the traditional bookcase and offers a myriad of combinations and colours – from the rigorous to the more asymmetric expression. As the cases are removable, you can redesign the look and renew its uniqueness from time to time.

SJ Bookcase is made from certified moso bamboo, one of the most sustainable natural resources the world has. We Do Wood only work with certified plantations. This is our guarantee that our bamboo is grown without any chemicals, pesticides, herbicides or fertilizers. Furthermore the bamboo processing and furniture manufacturing is done without the use of harmful chemicals and all adhesives used during processing and production has the lowest formaldehyde emissions in the industry.

## SCOREBOARD

Material: moso bamboo and mdf

Scoreboard Horizontal:

Height: 18 cm

Width: 100 cm

Weight: 1,9 kg

Scoreboard Vertical:

Height: 100 cm

Width: 18 cm

Weight: 1,9 kg

Scoreboard Small:

Height: 17 cm

Width: 36 cm

Weight: 1 kg

### About Scoreboard

Scoreboard is a graphical coat hanger with a lot of possibilities. You can decorate it the way you want it. Scoreboard was designed to interact and diversify through countless possibilities. The boards can be used individually or be combined to create a multifunctional piece of furniture.

Scoreboard can easily be combined with Correlations Bench or SJ Bookcase for multiple storage options.

## LILLY'S CHAIR

Material: moso bamboo

Height: 47 cm

Width: 39 cm

Depth: 37 cm

Seat Height: 21 cm

Weight: 2 kg

Colors:

### About Lilly's Chair

Lilly's Chair brings a new dimension into children's furniture. This children's chair was designed as an elegant, timeless and functional piece of furniture that can easily be placed in any room, without standing out as a childish item.

Lilly's Chair is made from certified moso bamboo, one of the most sustainable natural resources the world has. We Do Wood only work with certified plantations. This is our guarantee that our bamboo is grown without any chemicals, pesticides, herbicides or fertilizers. Furthermore the bamboo processing and furniture manufacturing is done without the use of harmful chemicals and all adhesives used during processing and production has the lowest formaldehyde emissions in the industry.

Together with Geo's Table you will have children's furniture that will last through generations.

## GEO'S TABLE

Material: moso bamboo

Height: 45 cm

Width: 70 cm

Depth: 39 cm

Weight: 7,2 kg

Colors:

### About Geo's Table

Geo's Table is a functional children's table with a large pull-out drawer, which can be used to stash paper, crayons and other favourite toys from both sides of the table. The table was designed to fit into any room, and can also be used as a side table or a small coffee table.

Geo's Table is made from certified moso bamboo, one of the most sustainable natural resources the world has. We Do Wood only work with certified plantations. This is our guarantee that our bamboo is grown without any chemicals, pesticides, herbicides or fertilizers.
